main description

Forrières belongs to the municipality of Nassogne, at the border between Famenne and the Ardennes and is crossed by the river Lhomme, the spring of which is situated on the Saint-Hubert plateau. Forrières's arboretum is little-known but is worth a visit.

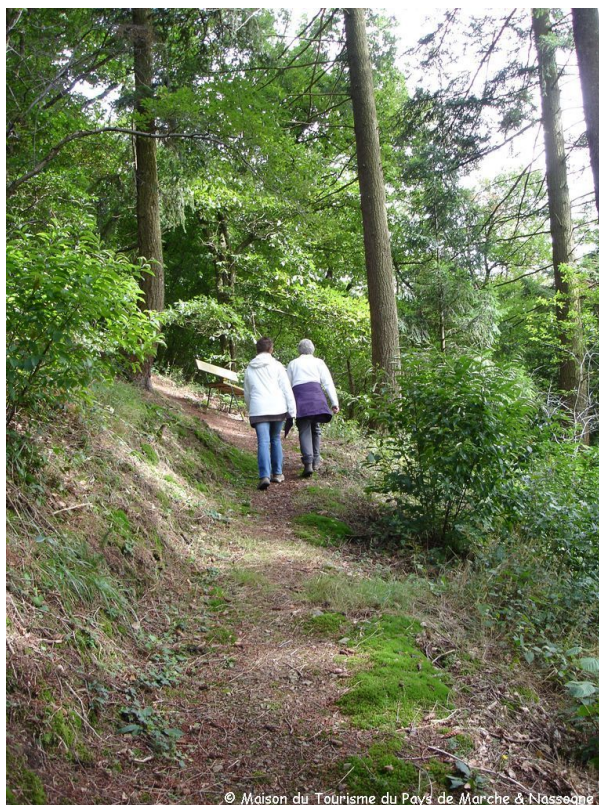

additional description

The arboretum is located at the place called "Coray". It is 6 ha wide and its average height is 260 meters.

A 2.5-km marked walk (with a difference of height of 81 meters) leads you at the discovery of this site through different educational stops (blind kit, land art, observation games).

In order to avoid bad surprises, it is better to wear walking shoes. It is not suitable for pushchairs.
